

# The bento library

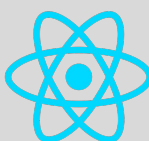

A React based library with some reusable components for you to use in your projects.

Button Badge Card Modal Accordion Dropdown

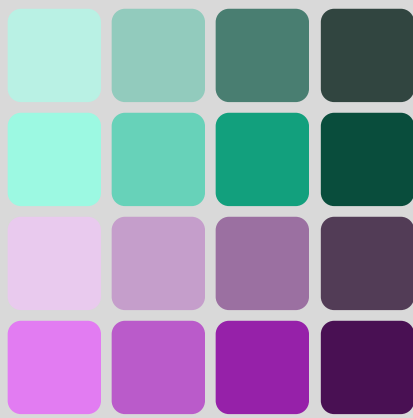

make  
it  
yours

Copy the JSX code and SCSS props to adapt it to your needs and use the variables module to modify the global look.

Select a color to style your component

#E27CF2

the code display will be here ↴

JSX 

Copy code

```
export const CodeForYou = ({ Modify, copyIT, loveIT }) => {  
  
  return (  
    <div>  
      <div  
        className='whatAComponent!'  
        style={{ background: veryNiceColor,  
          borderColor: anotherNiceColor }}>  
        {children}  
      </div>  
    </div>  
  );  
}
```

SCSS 

Copy code

```
.whatAComponent {  
  font-weight: $font-weight-bold;  
  transition: $smooth-transition;  
  padding: .5rem 1.5rem;  
  
  &:hover {  
    opacity: .8;  
  }  
}
```

Don't hesitate to contact me with any issue or just to say hi, even to join forces! I'll be honored to help.
